

WHAT DO EXPERTS SAY ABOUT HEXAGONAL WATER?

Dr. Don Colbert, M.D., *Author, The Seven Pillars of Health*

"Your body thrives in an alkaline environment since it is able to detoxify more efficiently than in an acidic environment. In an alkaline environment your tissues get rid of impurities more efficiently. When cancer patients come into my office to begin nutritional treatment, their bodies are almost always very acidic and toxic. My first task is to get their tissues alkalinized with alkaline water....."

"I have recommended alkaline,hexagonal water to even my youngest patients. In 2005 a ten-year old girl and her parents came to my office in South Carolina. The girl had crippling juvenile rheumatoid arthritis and weighed only fifty-two pounds. Her hands were swollen like mitts, and her knees were swollen as large as softballs. I put her on hexagonal, alkaline water, one to two quarts a day. A week and a half later she was pain free, and her swelling was significantly diminished..When she arrived she was wheelchair bound, but she was actually able to walk without pain after only a week and a half of drinking hexagonal, alkaline water. Her parents were ecstatic. We raised the pH of her tissues. After a month, her hands were almost normal size."

"Hexagonal, alkaline water is especially effective in treating those with chronic disease."

Dr Theodore Baroody *Author, Alkalize or Die*

"I have administered over 5000 gallons of this water for about every health situation imaginable. I feel that restructured alkaline water can benefit everyone."

Felcia Drury Climent, Author, The Acid Alkaline Balance Diet Adjunct Professor, City College New York

"After years of very positive continuous clinical experiment that I am conducting with hundreds of clients using electronically restructured alkaline water, it is my opinion that this technology will change the way in which all health providers and the public will approach their health in the coming years. ...My suggestion is to drink restructured alkaline water whenever possible."

Dr Sherry Rogers

"Alkaline water rids the body of acid waste... After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."

Dr. Susan Lark

University lecturer and author of The Chemistry Of Success, says: "Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis. Like vitamins C, E and Beta Carotene, alkaline water acts as an antioxidant because of its excess supply of free electrons. This can help the body against the development of heart disease, strokes, immune dysfunctions, and other common ailments."

Daniel Reid,

Author of The Tao of Detox says:

"Drinking alkaline water is a great way to neutralize and flush out all of the toxins and acids that drain from the tissues and bodily fluids, and to quickly rehydrate the body and keep the blood alkaline."

David Niven Miller,

Anti-aging expert and author of 'Grow Youthful',

"Increasing your consumption of good quality tap water or filtered water can transform your health and play a central role in the healing of virtually all degenerative diseases. However, alkaline water has profound long-term effects because it alkalizes your body and provides an effective antioxidant."

Harald Tietze

Author of "Youthing" says that "by drinking alkaline water, the aging process can be reversed and the wastes can be reduced in the long-term to a level of a much younger person. The functions of the organs can be revived."

Dr. Ingfreid Hobert MD

"You do not need expensive medicine with all the negative side effects to regain health... Alkaline water has profound long term effects because it alkalizes your body and provides an effective antioxidant".

Dr. Robert O. Young, PhD

In his book, The pH Miracle says it this way:

"Those willing to look again, and with clear eyes, will be rewarded with the secrets to permanent health. We can heal ourselves by changing the environment inside our bodies. Potentially harmful invaders, then, will have nowhere to grow and will become harmless."

Dr Hidemitsu Hayashi

Director of the Water Institute, Tokyo,

He says that bad diets such as meat and potatoes, fried foods, soft drink colas, and sugars build up acid salts in the body. Often these deposits, by having to be stored away from the blood flow, can remain in the body for *decades*. He recommends the consumption of ionized alkaline water, which will slowly and gently wash these salts away.
